PROJECT EXPERIENCE

Lithaven - Book Cataloging App | Wake Technical Community College

June 2024–July 2024

- Conducted comprehensive user research to understand readers' pain points, preferences, and behaviors, utilizing iterative design processes, refining concepts based on user feedback loops, resulting in a user-friendly book cataloging app.
- Developed a high-fidelity Figma prototype, showcasing seamless interactions and visual aesthetics, utilizing tools such as Figma, React.js, and Git.

PokéSearch- Pokémon App Project | University of North Carolina at Charlotte

February 2024–February 2024

- Designed and developed a dynamic Pokémon search app using front-end technologies like HTML, Tailwind CSS, JavaScript, and React, leveraging the PokéAPI to fetch data and implement search functionality, resulting in a comprehensive Pokémon information platform.
- Implemented search functionality and displayed Pokémon Pokédex entries, stats, and types, utilizing a user-friendly interface with responsive components, enhancing user experience and engagement.

PROFESSIONAL EXPERIENCE

University of North Carolina at Charlotte, Charlotte, NC

May 2023–May 2024

Instructional Assistant

- Ensured student success by identifying and overcoming academic difficulties.
- Provided individual academic support during regular office hours.
